

Combi TF

Remote Control & Flash Trigger

Combining two products in one - a wireless remote shutter release and a remote flash trigger

Wireless remote shutter release

- ▶ As a remote control, the Combi TF allows wireless control of the camera's shutter release, auto focus, continuous shooting, bulb mode and 4 second timer delay trigger.
- ▶ Equipped with interchangeable cables for all major brands, the Combi TF is the ideal remote control for practically all DSLR Cameras.

Remote flash trigger

- ▶ Remote trigger of flash is also possible with the Combi TF. Using multiple receivers, several portable flash units can be fired simultaneously, along with triggering studio lights.
- ▶ Ideal for a wireless studio environment.

Camera Connectors

*High-tech, reliable
FSK 2.4GHz frequency,
which is a worldwide
licence free technology.*

Available for
Canon, Nikon,
Olympus &
Panasonic

Accessories for Combi TF

Studio Light Cable

- ▶ A short, 150mm, studio light cable attaches the Combi TF receiver to the studio light.
- ▶ Place the transmitter on the camera shoe, the studio light is triggered by use of the shutter release on the camera.

Receiver

- ▶ Additional receivers enable you to trigger multiple flash units and studio lights simultaneously.

For Canon, Nikon, Olympus and Panasonic Cameras

Specialised photography such as sporting, wildlife, landscape plus many more are enhanced using the Combi TF.

Also in the hähnel Remote Control Range
