Genie II

Genie II Pan Tilt, Genie II Linear, Magic Carpet

genie. ||

Still simple, still portable, still setting the benchmark in motion control.

A new era of motion control. The Genie II is stronger, faster and quieter than its predecessor with the same attention to simplicity and portability.

Sure, you can still fit it in your backpack, but this time you'll also be getting keyframes, full camera control, high speed wireless connection, 3 axis motion control and much, much more.

- Full keyframe setup for time-lapse, video and panorama.
- Automated bulb ramping time-lapse.
- Joystick driven live movement control.
- Swappable battery packs.
- Full wireless camera control.
- Live view mode.
- Compiled time-lapse preview.
- Universal slider compatibility.
- App control on iOS and Android.
- Colour LCD for simple setup control (Genie II Pan Tilt).

Genie II Pan Tilt

Genie II Linear

**A simple, portable solution for motion control
time-lapse + video.**

The key to the Genie lies in its compact size, easy-to-use menu and extreme versatility.

Rather than limiting yourself to a fixed length rail system or slider, simply attach the Genie to your existing professional gear or DIY equipment for smooth motion control time-lapse + video.

-
- Panning or tracking in one device.
 - Versatile - works with your existing sliders and tripods.
 - Ultra portable and fits into a single camera bag slot.
 - Ease in / ease out for smooth ramping movement.
 - Auto start and repeat for 'one-man-crew' situations.
 - Compatible with most digital cameras.

Pan Tilt Kit

Genie Mini (x2), Pan Tilt Bracket

genie. Mini

An easy-to-use device for panning time-lapse or video with wireless app control.

The perfect entry-level time-lapse tool as well as a professional add-on to our current Genie range for multi-axis control.

Operated by a beautifully simple app with factory presets, you never need to be without motion control again.

-
- Pocket-sized motion control.
 - Modes for Time-lapse, Video, Panorama and Product Turntable.
 - Beginner friendly with factory presets.
 - Ease in / ease out for smooth ramping movement.
 - HDR time-lapse & panorama shooting with bracketed exposures.
 - Combine two Genie Minis for Pan Tilt control.
 - Use with the Genie for Pan Track and 3 axis control.
 - Compatible with most digital cameras.

Magic Carpet Pro
2ft (600mm) Short track

magic carpet. PRO

Portable, extendable, and effortlessly smooth tracking. Opening a new world of possibilities for the professional filmmaker.

With a concealed motion-smoothing Flywheel, a lightning fast Quick Release System, heavy duty alloy for carrying larger camera setups and the option of joining tracks for endless length, the Magic Carpet Pro was designed with the professional filmmaker in mind.

Simple to use and ready to go to work in the most demanding environments.

- Support for professional cameras up to 70lbs (32kgs).
- Press button engagement of advanced motion-smoothing system.
- Sudden impact protection system.
- Interchangeable camera threads.
- Counterweight ready for vertical moves (adjustable legs).
- Powered motion control ready.
- Quick Release Plate for rapid setup changes.
- Heavy duty connectable bags for easy transport.
- Infinitely extendable in 2 or 3ft lengths (600 or 900mm).
- Pro durability and user serviceability for a lifetime of use.

magic carpet. CF

A lightweight, infinitely extendable and extremely portable carbon fibre slider.

With a tool-less set up, the lightweight and versatile Carbon Fibre Tracks pack away perfectly for intrepid filmmakers and time-lapse photographers.

- Extremely portable and lightweight.
- Infinitely extendable, with seamless and tool-less joining.
- Tripod mounting points at both the centre and ends of the track.
- Motion control ready with integrated rope hooks for Genie and Genie II.
- Vertical shooting with Counterweight Wheels.
- Compatible and interchangeable with Magic Carpet Carriage and End Caps.
- Available in 2, 3.9 and 5.9ft (600, 1200 and 1800mm).
- Additional extensions available separately.

magic carpet.

A simple, elegant, and durable slider for producing silky smooth professional tracking movements.

Designed and engineered with the filmmaker in mind, it's the perfect lightweight solution for manual tracking shots as well as being motion control ready.

- Portable and lightweight.
- Motion control ready with integrated rope hooks for the Genie.
- Adjustable legs with fine adjustment feet.
- Vertical shooting with built-in Counterweight Wheels.
- Silky smooth ball bearing roller Carriage.
- Lockable Carriage Brake for safe and easy transport.
- 3/8" and 1/4" UNC Camera Screws.
- Available in 2, 3.3 and 5.2ft (600, 1000 and 1600mm).

Slingshot 3 Axis Kit
Slingshot, Genie, Genie Mini (x2), Pan Tilt Bracket

slingshot.

The professional film tool for shooting extremely long time-lapse moves.

Shoot 1, 2 or 3 axis time-lapses, adding next-level production value to your films with this unique motion control tool.

The Slingshot is 'Genie compatible', enabling time-lapses over long distances of up to 330ft (100m) in length.

-
- Simple setup with quick ratcheting cable design.
 - Extremely long moves up to 330ft (100m).
 - Multi-axis options including Pan Track and 3 axis.
 - Ready to shoot with all tools and cables included.
 - Entire kit fits inside a portable backpack (included).

filter. VND

The Variable ND filter is an essential filmmaking and photography tool for greater exposure control in bright light situations.

With a simple twist of the filter ring, reduce your exposure by 1 stop to 8.5 stops of light, allowing for wide open apertures in full sunlight.

An essential tool for filmmaking with DSLRs that do not have a built-in variable ND filter.

- High quality multi-coated Japanese glass.
- 1 - 8.5 stops of light reduction.
- Smooth variable neutral density adjustment.
- Fits multiple lenses with two step up rings included in each case.
- Two sizes available in 2.6 and 3.2inch (67mm and 82mm).
- Leather case included.

filter. SD VND

The Super Dark Variable ND Filter is an invaluable accessory for achieving very slow shutter speeds in bright conditions.

Transform lakes into glassy mirrors and movement into soft motion blur, creating a time-lapse with a smooth fluid look. Slow your shutter speed to at least 15 seconds even in the middle of the day.

- High quality multi-coated Japanese glass.
- Very slow shutter speeds in full sunlight.
- 5 - 10 stops of light reduction.
- Smooth variable neutral density adjustment.
- Fits multiple lenses with two step up rings included in each case.
- Two sizes available in 2.6 and 3.2inch (67mm and 82mm).
- Leather case included.

Accessories

Ballhead

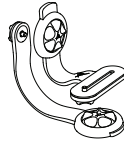

The perfect lightweight match for DSLR and mirrorless cameras. Complete with bubble levels, quick release knobs and a quick release plate.

The Syrp Ballhead is your perfect Genie companion.

Magic Carpet Carry Bag

Protect your Magic Carpet Track with this padded carry case with leather detailing and hand and shoulder straps. Designed to carry a complete Magic Carpet Track Kit with End Caps + Carriage.

Pan Tilt Bracket

Combined with two Genie Minis, the Pan Tilt Bracket allows you to create smooth Pan Tilt time-lapses and video movements.

An additional tracking axis can be added with a Genie for full 3 axis motion control.

Product Turntable

Combined with a Genie Mini and the Syrp Genie App, shoot and rotate precise angles, automating your product photography and filmmaking workflow all the way up to 360°.

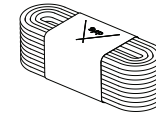

Accessories cont.

Slingshot Rope

A specialised accessory designed to work specifically with the Slingshot. Made from non-stretch material, the rope will always remain uniform under tension.

Available in 164 and 330ft (50 and 100m) lengths.

Genie Rope

Expand the length of your tracking move with our Kevlar Core non-stretch Genie Rope.

Available in (33, 164 and 330ft) 10, 50 and 100m) lengths.

Link Cable

Use the Syrp Link Cable to connect between the Genie or Genie Mini and your camera. Link Cables come in 9 different types, supporting hundreds of different cameras.
